SUMMARY

I am a confident and determined individual, committed to continuous learning and exploring the latest technologies. With experience in mobile app development using React-Native & Flutter and a strong foundation in multiple programming languages. I thrive on creative thinking and innovative problem-solving. My projects, reflect my dedication to delivering high-quality work and acquiring diverse skills for professional growth.

EXPERIENCE

Mobile Application Developer

QWERTY Experts

06/2024 - 08/2024 Lahore, Pakistan

Crafting Bespoke Software

- Developed and deployed 5+ React Native applications, improving user engagement by 20%.
- Utilized Git for version control, streamlining workflow and reducing code conflicts by 30%.
- Collaborated with a team to build full-stack applications and enhancing team productivity through effective communication and project management.

Mobile Application Developer

WIZMEN Systems

06/2023 - 08/2023 Lahore, Pakistan

Where Business & Technology Merge Together

- Developed 3+ Flutter applications, achieving a 15% increase in user satisfaction.
- Mastered state management with Provider, resulting in 25% more efficient app performance and integrated Firebase for backend services, reducing data retrieval time by 40%.
- Demonstrated efficiency in completing tasks within specified timelines, maintaining a 100% on-time delivery record.

SKILLS

C/C++	Python	JavaScript	TypeScript	SQL	Dart
GoLang	Solidity	Your Skill			
React-Native	Flutter	ReactJS	NextJS	Firestore	
MongoDB	MySQL	PostgreSQL	Your Skill		

CERTIFICATIONS

Python 101 for Data Science (PY0101EN, provided by IBM)	Data Analysis with Python (DA0101EN, provided by IBM)
Machine Learning with Python (ML0101EN, provided by IBM)	Github Copilot 101 (Provided by Microsoft Learn Student Ambassadors)

Describe what you did and the impact it had.

EDUCATION

Bachelor of Science in Computer Science

National University of Science and Technology
- FAST 09/2021 - Present

08/2021 - 06/2025

PROJECTS

Smart Invest - React-Native

08/2024 - 08/2024

Associated with Qwerty Experts

- Smart Invest enables seamless P2P trading for secure transactions and offers a variety of investment packages that allow users to grow their assets based on their investment amounts.
- The robust backend, built on MongoDB, Node.js, and Express.js, ensures scalability, while the successful deployment on an Ubuntu server guarantees reliability. Stripe payment processing for deposits and withdrawals, enhances user convenience.

Carpool - React-Native

07/2024 - 08/2024

Associated with Qwerty Experts

- Users can easily search for their destination and select from a list of available drivers heading the same way.
- The app also allows vehicle owners to share rides and earn money, promoting sustainable travel. With integrated RESTful APIs for secure authentication and core functionalities, the app provides a user-centric solution for commuting.

NovaNest - Flutter

04/2024 - 04/2024

Freelance Project

- A chat app designed for secure and seamless communication on both Android and iOS.
- It ensures end-to-end encrypted chats using unique token hashing, prioritizing user privacy.
- NovaNest offers instantaneous messaging with a streamlined caching system for recent messages, Google authentication for easy access, and real-time push notifications to keep users connected.

BookEase - Flutter

07/2023 - 08/2023

Associated with WIZMEN Systems

- Built using the Flutter and Dart framework, BookEase ensures a seamless experience across platforms.
- The app leverages SQLite for efficient local data storage, enabling quick access to information even offline, while Google Firebase serves as its backend, providing real-time data management for fast, reliable updates.
